

A VIENNESE LANDMARK, REINVENTED

VIENNA

ROSEWOOD

A reinvented Viennese landmark, Rosewood Vienna is as an homage to the heritage, craftsmanship and contemporary culture of the capital set in the heart of its Old Town.

Behind the restored 19th-century façade, a design language blends illustrious grandeur with local artistry. A hand-painted mural blooms across Salon Aurelie's walls, crystal chandeliers by Lobmeyr cast soft light onto Backhausen textiles and a ceramic vase installation offers an ode to the Danube.

Above it all is space to settle tableside where cuisine celebrates Viennese heritage through fresh expression, seasonal ingredients and Austrian flavor. Indulge in a reimagined Gugelhupf cake that honors tradition and wines from nearby Nussberg, either at the unique rooftop bar or during an urban vineyard experience.

The diversity of Viennese culture is experienced both inside and out. From a setting in the city's old town, step into the Vienna State Opera, the Albertina museum and St. Stephen's Cathedral. Explore the Naschmarkt with a local, follow Mozart's footsteps in his former home or uncover emerging creativity through the city's street art scene and private viewings.

Rosewood Vienna is a stay of modern elegance, poised between the grandeur of the capital's past and the unfolding story of its present.
